SAMPLES

Nature : Human Animal Vegetal Other (bacteria, ...) precise :

Requires containment >1 no yes Fixation no yes, which one ?:

Does it come from a GMO: no yes, which class ? GMO declaration no:

Infected sample? no yes, which infectious agent? :

Conservation : no (chemical waste) yes, modality:

Elimination :

no (rendering method) :

yes (according to the H&S regulations in each establishment for the disposal of chemical waste)

On the acquisition stations, confidentiality and data protection are not ensured; the user is responsible for transferring the data to the storage server and deleting it at the end of each session. The facility offers secure access by login and password on this temporary storage server. The images are the responsibility of the users and are temporarily saved on the IMAGERIE server. The data must be retrieved from the server by the user or they will be deleted during the monthly periodic deletions.
